

WATER AWARENESS

We are proud supporters of the Ionian Environment Foundation.

One of the principal challenges on the island is severe water scarcity which comes under extreme pressure during the tourist season.

We would ask you to help us to preserve those resources by careful use of the water.

You can help address this water crisis directly during your stay by carrying out the following 3 actions:

1. Take a 'quick' shower/turn water off whilst lathering
2. Turn taps off whilst brushing teeth
3. Think twice before putting towels and clothes in the wash

You can learn more about our efforts to conserve the unique environment of our island by scanning the QR code and also read more about the IEF Villa Alliance which strives to promote actions that ensure we all tread more lightly on this precious environment.

Thank you.
